UX / PRODUCT DESIGN EXPERIENCE

UX Designer Intern – doCuro Systems

Jan 2026 – Jun 2026

- Contributed to the redesign of an e-signing and document management platform, focusing on information architecture, workflows, usability and interface clarity.
- Created wireframes and prototypes in Figma, conducted user interviews and contributed to a more consistent visual and interaction design.
- Contributed in the development of a new company website in Framer.

UX Designer Intern – Your Company Sweden

Aug 2025 – Oct 2025

- Analyzed research insights, formulated hypotheses, and developed design concepts to improve usability and engagement.

Branding & Visual Identity – THNDR / Custom Hoj

Jan 2026

- Created a new logo and visual identity as part of a rebranding project for Custom Hoj and their clothing brand THNDR.
- Developed visual concepts that will be used in upcoming clothing collections and brand material.

- Branding & Visual Identity

LANGUAGES

- Swedish – Native
- English – Professional proficiency

ABOUT ME

UX/UI Designer recently graduated from IT-Högskolan, with hands-on experience in user research, interviews, prototyping, usability testing, and interface design. I enjoy understanding complex problems, identifying what matters most to users, and turning insights into clear, intuitive, and visually refined digital experiences. Before transitioning into UX, I spent over ten years working in coaching, education, and leadership. This has strengthened my ability to understand people, communicate clearly, structure problems, take responsibility, and continuously improve. I'm particularly interested in the intersection of user experience, visual design, technology, and AI, and I enjoy working closely with others to turn ideas into practical solutions.

WORK EXPERIENCE

Strandhälsan, Falkenberg

Jan 2019 – ongoing

Personal trainer/coach/educator

- Working closely with individuals, athletes, and teams to understand goals, challenges, and long-term development needs.
- Designing structured training programs adapted to different individuals, goals and situations.

Drottning Blankas gymnasieskola, Falkenberg

Aug 2020 – Jun 2022

PE Teacher

- Planned and conducted physical education classes for first- and second-year students.

Crossfit Helsingborg

Oct 2017 – Dec 2018

Box Manager/Head coach

- Responsible for the daily operations and coordination of the facility, with a focus on structure, planning, and quality.
- Planned and led classes while coordinating schedules and activities for the coaching team.
- Conducted personal training sessions, workshops, and educational courses.

EDUCATION

UX Designer, IT Högskolan

Aug 2024 – Jun 2026

Graduated from IT Högskolan in June 2026.

Coursework focused on designing user-centered systems and digital products, including user-centered design, agile methodologies, web design, prototyping, and branding.

BSc in Biomedicine with specialization in Physical Training

Aug 2013 – Jun 2016

Studies conducted at Halmstad University included anatomy, physiology, biomechanics, psychology, nutrition, and health-related sciences.

Barn & Fritidsprogrammet, Ullvigymnasiet

Aug 2002 – Jun 2005

Selected as one of eight students nationally accepted into the Swedish elite table tennis program, combining academic studies with high-level training and competition.
